Education in Yame City

Fundamental Educational Goal of Yame City

To foster people who love and value their hometown

Key Priorities of School Education in Yame City

1. Creating schools trusted by the community

(a) Schools that foster solid academic ability

Solid academic abilities include :

- Basic knowledge and fundamental skills
- Abilities to think logically, to judge fairly and to express themselves in order to solve problems
- An attitude of learning voluntarily with motivation to learn

(b) Schools that maintain order and discipline

Building interpersonal relationships through school life and group activities :

- Reduce the incidence of students chronically absent from school
- Eliminate bullying and problematic behaviors
- Create a community where justice and fairness prevail

2. Fostering children who love Yame City and take pride in their hometown

We endeavor to provide age-appropriate learning and experiences about what makes Yame City special within school lessons.
